NEWS OF KANSAS.

A Bonded Warehouse Will Probably be Built at Atchison.

L. M. Erb of Leavenworth Invents a New Trolley Wheel.

OTHER STATE NEWS.

Sensational Death of Mrs. R. C. Knight of Muscotah.

ATCHISON, Nov. 27.—Atchison is to have a government bonded warehouse. Ed Murphy, deputy United States internal revenue collector, has been in Atchison since Saturday investigating the matter. Clark Drummond is the applicant for the license.

A bonded warehouse is used for the storing of brandy, and is in charge of a storekeeper, who is appointed by the government. There is no such warehouse in this section of the country, and all the brandy distilled in Kansas, Missouri or northwestern Missouri goes to St. Louis. This brandy will be stored in Atchison in future, if the enterprise is a success.

The storekeeper is in absolute charge, and seals the door every time he locks it. It is his business to see that the brandy is properly gauged and stamped before it leaves the warehouse. It is generally stored from one to two years.

MUSCOTAH HAS A SENSATION.

Mrs. R. C. Knight Dies Suddenly Under Very Peculiar Circumstances.

ATCHISON, Nov. 27.—Muscotah is greatly excited over the sensational death of Mrs. R. C. Knight, of that place, at Plattsburg, Mo., Friday morning last. Last Thursday Mrs. Knight left Muscotah ostensibly to spend a few days at St. Joe, where she had acquaintances. When she arrived at St. Joe she was met by D. A. Palmer, who formerly operated a hardware store at Muscotah. From St. Joe they went to Plattsburg, Mo., Mrs. Knight taking her 5-year-old son with her. They put up at the Laclede hotel at Plattsburg, registering as man and wife. Palmer did not register a fictitious name at the hotel. About 5 o'clock Friday morning, Palmer came rushing down stairs, and said that his wife was dying. A physician was summoned at once, but Mrs. Knight was dead before he arrived. A coroner's inquest was held Saturday, and the verdict of the jury was that the deceased came to her death by heart failure, brought on by excitement. There was no reason to believe that Palmer had intentionally caused her death, and no autopsy was held. Palmer cared for the child the best he could and left with the corpse for Muscotah. While in Atchison Palmer talked with a reporter at the depot.

The child was crying for its mother who lay dead in the baggage room, and would not be quieted. Palmer said that he had intended to marry Mrs. Knight

although their engagement had been kept a secret.

Palmer claimed that the marriage would have occurred yesterday, had not Mrs. Knight's death prevented. He said that she was a woman, he was infatuated with and he did not have the power to resist temptation. Palmer is now living at Horton, where he is making preparations to go into the hardware business. Mrs. Knight is a stepdaughter of Dr. Martin of Muscotah.

L. M. ERB'S INVENTION.

Has a New Trolley Wheel Which He Thinks Will Supercede All Others.

LEAVENWORTH, Nov. 27.—Louis M. Erb, general manager of the Leavenworth Electric Railroad company, is something of a genius as well as a railroad man. He has patented a goodly number of his own inventions, some of which have become popular.

The latest invention of Mr. Erb is a trolley wheel. It is the little grooved brass contrivance that runs along under the trolley wire and extracts the electric current from it. Mr. Erb has had a good deal of trouble with these wheels. Some that he has used here have worn out in a single day, others in two or three days, while some will last a week or two. These wheels cost \$1 each by wholesale. The old style wheel is a single piece; Mr. Erb's invention is provided with brass discs. When either disc becomes badly worn it is simply replaced by a new one and the wheel is as good as new again. The discs can be manufactured and placed on the market at 10 cents each, and there is good money in them at that price. The new wheel is very simple and can be taken apart and put together in a few seconds.

Mr. Erb went to Chicago last night, taking a model of his invention with him. The General Electric company is to manufacture the wheel on a royalty.

DIPHTHERIA VERY BAD.

Schools at Kansas City and Pittsburg Have Had to Close.

PITTSBURG, Nov. 27.—So prevalent has diphtheria become in Pittsburg that two of the schools have been closed, and the rest will follow to prevent the spread of the disease.

KANSAS CITY, Nov. 27.—The diphtheria scare in the second ward has resulted in the closing of the Everett school until December 3. President J. H. Gind of the board of education yesterday gave instructions to superintendent L. L. Hanks, of the city schools, to have the school closed as a precaution.

BALDWIN, Nov. 27.—The Baldwin Athletic club football team, which is made up of last year's Baker university football players, left here today to play in Denver on Thanksgiving. Pendleton, Heiler and all the old players will be with them. The credit of the team's gain in Thursday's game will belong to the town Athletic club, under whose management the game is played.

Alliance Exchange Assigns.

JUNCTION CITY, Nov. 27.—The Alliance Exchange of this city, which has been among the most successful in the state, assigned today in favor of Lord Brock, of Kansas City, whose claim is \$1,500. There is \$900 in other accounts outstanding, not including the scrip, which has been used largely among farmers.

New Mill for Hutchinson.

HUTCHINSON, Nov. 27.—Mr. W. L. Woodmull and Walter Kiles are erecting a mill, three stories high, 42x45 feet, on Avenue C. The name of the new firm will be W. L. Woodmull & Co. They will also erect a grain elevator in connection with the mill. The new mill will have the latest of machinery.

Cracksmen Poorly Paid.

LEAVENWORTH, Nov. 27.—Cracksmen visited the store of J. C. Brewster and Jacob Gumbiner on Cherokee street between Fourth and Fifth streets last night. All told they got less than five dollars, which was poor compensation for the amount of work they did. Judging from the way they went at the jobs they must be old hands at the business.

Almost like electricity, Dr. Price's Baking Powder because it works so quick. No other works so fast.

PROMOTERS OF THE WEST.

The Trans-Mississippi Congress Gets as far as Fort Worth.

ST. LOUIS, Nov. 27.—It was nearly three quarters of an hour after the appointed time that President Whitmore called the Trans-Mississippi to order and the completion of the preliminary work of the congress was entered upon.

The adoption of the report of the committee on credentials, which night, which enrolled all appointed delegates, properly accredited, without regard to their presence, gave especial point to the report of the committee on rules and order of business which provided for a voting power for each state delegation of not to exceed thirty votes, if so many delegates are present, all states to have a voting power of not less than 10, no matter what the smallness of the attending delegation.

The delegates from Kansas are W. H. Tothage, Stephen Crane, Missouri, E. O. Sanford, E. V. Turner, Nebraska, W. J. Bryan, W. Richardson, Oklahoma, Sidney Clark, J. A. McGuire.

Wyoming, Louisiana, Nevada and North Dakota are not represented in the convention, while Minnesota, Oregon and Alaska were able to name but one member instead of two as authorized.

After some debate the original report was adopted.

Delegate W. J. Bryan of Nebraska introduced a resolution favoring the restoration of the free coinage of gold and silver at the ratio of 16 to 1, without the aid of any other nation on earth.

Delegate A. H. H. of Missouri introduced a resolution favoring efforts by the government toward inducing other governments to recognize silver more fully as a money metal.

The committee on permanent organization at this juncture presented its report, naming George Q. Cannon of Utah for the permanent presiding officer, with one vice president from each state to be named by its delegation.

The present secretary, M. G. Butterfield, of Oregon, was requested to continue through this congress. The report was immediately adopted and President Cannon escorted to the chair by delegates Standard (Missouri), Black (Washington) and Johnson (California).

After brief speeches of congratulation and thanks to the retiring officer, Mr. Whitmore, the congress adjourned for dinner.

Institute of Arts and Languages. Elocution, Dramatic Art, F. P. Cleaves, M. A., Instructor, Jackson and Eighth.

NEW SILVER PARTY.

How the Party Is to Be Organized.

Cameron is to Amalgamate the Workingmen.

While Senator Jones Combines the Westerners.

IN SOUTHERN STATES

Populists and Republicans Expected to Unite to a Man.

WASHINGTON, Nov. 27.—The story which is current in the west that Senator Jones of Nevada and Senator Don Cameron of Pennsylvania are proceeding to the organization of a new political party, is causing considerable talk among politicians in Washington. It is said that the plan and scope of the new party, as understood by the politicians, reveals the possibility of an organization of considerable strength, which, while not powerful enough to pose as a really dangerous rival to the old parties, would prove an influential element in the next campaign to the extent of drawing from the Democratic and Republican following to a degree which might weaken them.

The plan is a combination enterprise, a political partnership with two branches of work to be respectively assumed by the partners, each of whom is to raise a faction to be united under one banner, and, by voting for each other's interests, to gain their respective objects. In short, it is to be a union of the labor classes of the east and the free silver men of the south and west, with acquisitions from the great mass of people who may be disaffected with the Democrats and Republicans, and yet not ready to endorse the visionary schemes of the Populists. The work which it is said will fall to Mr. Cameron's lot in this new undertaking, will be the amalgamation of the labor classes. All that is asked from labor in return for the advantages thus offered is the support of the free silver demands of another large portion of the country, situated like labor, unable to accomplish what it wants alone, but which can enforce its needs by union.

Senator Jones's task is explained to be the enrollment of the west and south into line, promising them free silver and an extended currency in exchange for their support of the interests of the eastern wing of the new party. In the west it is claimed that Senator Jones will have two fruitful fields from which to recruit his ranks. There will be the original free silver men, who want the upholding of the white metal against all comers and under whatever conditions may be necessary. These will form the nucleus of his faction. Then will come the labor classes. If that is claimed, those men who were Populists for a while, held to that organization by the free silver thread, and who, on account of the vagaries of their new love, were finally compelled to divorce her at the last election and go to the Republicans.

In the south, it is said, the new party expects to muster a force with the cry of more money and fair elections. It is believed by the promoters of the scheme that this will capture the Populist body and soul and swing into line the Kolbites of Alabama and the Republicans of Virginia, North Carolina and Tennessee, who want honest elections.

No lady will ever know how superior to every other Dr. Price's Cream Baking Powder is until she tries it.

BIMETALLIC LEAGUE CONFERENCE.

They Are In Conference to Outline a Policy for Silver Factions.

ST. LOUIS, Nov. 27.—An informal conference of the American bimetallic league called by President A. J. Warner, met in the parlors of the Southern hotel this morning. It is to continue two days, and its object, as stated by General Warner and others, is to outline a policy for the silver factions of the two great parties and a silver policy for the People's Party for the next two years.

The meeting was called at this time only to give the delegates to the Trans-Mississippi congress, many of whom are silver men, an opportunity to attend the conference. Quite a number of prominent silver men are present from different parts of the country. The proceedings so far have been purely informal in character.

Prescott & Co have removed to No. 118 West Eighth street.

ABSOLUTELY PURE

TODAY'S MARKET REPORT.

Furnished by the Associated Press to the State Journal.

CHICAGO, Nov. 27.—Wheat opened 1/4c lower here today with considerable realizing by local operators. The easier feeling is apparently due to the large northwestern receipts and because the crowd overrid the buying yesterday. Cables were firm. May started at 60 1/4c and sold off to 59 1/4c. Later the market advanced to the opening price and again receded to 59 1/4c.

Corn was easier, partly with wheat, partly on the large receipts—942 cars—and dry weather. May opened 1/4c lower at 48 1/4c, declined to 48 1/4c and rallied to 48 1/4c.

Oats were dull. May opened 1/4c lower at 32 1/4c.

Provisions were firm on the light receipts of hogs. January pork opened 5c higher at \$12.12 1/2 and advanced to \$12.15. January lard opened 2 1/2c lower at \$1.09 and advanced to \$1.07 1/2.

Estimates for tomorrow: Wheat 129 cars, corn 650 cars, oats 140 cars, hogs 42,000 head.

WHEAT—Nov. 54c; Dec. 54 1/4c; 54 1/2c; May, 54 1/4c; 54 1/2c; July, 54c.

CORN—Nov. 48 1/4c; Dec. 48 1/4c; Jan. 48 1/4c; May, 48 1/4c; 48 1/2c.

OATS—Firm. Nov. 32 1/4c; Dec. 32 1/4c; May, 32 1/4c.

PORK—Nov. \$11.90; Jan. \$11.90; May, \$12.12 1/2.

LARD—Nov. \$6.85; Dec. \$6.87 1/2; May, \$7.10.

RIBS—Nov. \$5.97 1/2; Jan. \$5.97 1/2; May, \$6.12 1/2.

BACON—Choice, 55c; medium, 55c; common, 50 1/2c.

RYE—Cash and Dec. 47 1/2c; May, 53c.

FLAX SEED—Cash, \$1.40; Dec. \$1.47 1/2; May, \$1.45 1/2.

TIMOTHY—Cash and Nov. \$5.65.

HOGS—Receipts today, 27,000; official receipts yesterday, 53,000; shipments yesterday, 13,000; left over about 16,000.

Quality very fair. Market active and firm at 5c advance. Packers and shippers both buying freely. Sales ranged at \$3.05 1/2 to \$3.10 for light, \$3.10 1/2 to \$3.15 for rough packing, \$3.15 1/2 to \$3.20 for mixed, \$3.20 1/2 to \$3.25 for heavy packing and shipping hogs, and \$3.25 1/2 to \$3.30 for pigs.

CATTLE—Receipts, 3,500. Quiet at unchanged prices.

SHEEP—Receipts, 7,000. Market firm; fair demand.

KANSAS CITY MARKET.

KANSAS CITY, Nov. 27.—CATTLE—Receipts, 7,500; shipments, 1,500. Best steady, others weak. Texas steers, \$3.20 1/2 to \$3.25; Texas cows, \$3.10 1/2 to \$3.15; beef steers, \$3.15 1/2 to \$3.20; native cows, \$3.10 1/2 to \$3.15; stockers and feeders, \$1.85 to \$3.60; bulls, \$1.25 to \$2.75.

HOGS—Receipts, 14,000; shipments, 200. Market strong to 10c higher. Bulk of sales, \$3.30 1/2 to \$3.35; heavies, \$4.40 to \$4.65; packers, \$4.30 to \$4.55; mixed, \$4.20 to \$4.50; lights, \$3.30 to \$3.45; yorkers, \$4.20 to \$4.50; pigs, \$3.50 to \$3.55.

SHEEP—Receipts, 3,100; shipments, 300. Market steady.

WHEAT—No. 2 red 1/4c higher; hard unchanged. No. 2 hard, 51 1/2c; No. 2 red, 49c; rejected, 46c. Sample sales C. & A. Mississippi river; No. 2 hard, 60c; No. 2 red, 55 1/2c to 56c.

CORN—Steady. No. 2 mixed, 41 1/4c; 41 1/2c; No. 2 white, 42 1/4c to 42 1/2c.

OATS—Nominally steady. No. 2 mixed 30 1/2c; No. 2 white, 30 3/4c.
